677 Ala Moana Blvd.  
Honolulu, Hawaii 96813

Dear Bob:

It was my pleasure to see a patient of yours that you had taken care of some 10-15 years ago. She had a most magnificent and perfect result from liposuction of her thighs. Unfortunately she had gone to see one of our local ophthalmologists who has learned "plastic surgery" on weekends and had her abdomen done by him before finding out that his credentials were not those of our society's. Her abdomen looks like a "bombed out" section of the Beirut Green Line and I'm not sure that anything can truly help this situation as even an abdominoplasty would not remove the irregularities and further suction would probably result in such little subcutaneous fat that her skin would look like a skin graft attached to the rectus fascia.

I truly feel blessed to have been alive during the life and times of Robert Flowers as you have contributed so much to our knowledge and added so many finesse procedures, especially to eyelid surgery, that it is a pleasure and an honor to know you and to be practicing during the times of your work and publications.

This hit me so strikingly when I saw this lady and saw what a beautiful, symmetrical, and excellent job you had done on her lateral thighs and then to see the devastation caused by some "wannabee" cosmetic surgeon. You are a blessing to our field. I hope all is well with you and your family.

With warm regards,

Peter P. Kay, M.D., F.A.C.S., F.R.C.S.(C), F.R.C.S.(Ed)
