Dear Dr. Flowers:

I would like to take this opportunity to thank you and your staff for welcoming me into your office and operating room during my trip to Hawaii. I have been aware of your contributions to our specialty for many years and have respected your opinions for some time. However, it deepened my appreciation for your expertise and knowledge by spending time in the OR with you. The techniques that I learned from you will be very valuable to my future patients. I know it will take decades of refinement to perfect techniques as I appreciate the precision and complexity of your procedures.

I want to thank you for your generosity in sharing many of your time tested pearls with me. I am happy I had the chance to learn from the "true master". I hope I have the opportunity to visit with you again to expand my knowledge and visit with you and your staff.

Sincerely,

Brett E. Stompro, M.D. F.A.C.S.
