

February 14, 2007

Dear Dr. Flowers and Staff,

I would like to take the time on this Valentine's Day to formally thank you and your staff for doing such a beautiful job on my breast augmentation. I am so thankful that for the past 2 years, they've brought me so much happiness, not only aesthetically, but inwardly as well. I know you've heard this over a thousand times, but thank you so much. I am so happy with them and so thankful to God for you and your staff.

Since receiving the saline implants (420CC) two years ago, I am so thankful to have received so much lovely attention. Since then, I've received unsolicited offers to model from various import modeling venues in Hawaii, and have also become a model for an agency at the top of the import scene: Hot Import Nights. I know that it takes a lot of personality to be a model, but the breast augmentation really helped in capturing the initial attention.

I especially love how natural they look and feel because of your ability to underfill them. Because they are underfilled, they move with me and don't look fake or hard, thank God. Underfilling made them softer and a lot of people don't even seem to know that they've been surgically enhanced.

As you've come to know, I'm moving to the mainland. I would like to thank you for caring enough about myself and my breasts to provide me with referrals for other surgeons (just in case) while I am away from Hawaii. I enjoy going to your clinic for regular check-ups because of your caring approach toward your patients.

I thank God for your skill and for your generosity.

Sincerely,

Marisa
